

Case Study: Enhancing Chakki Peesing's Instagram Presence Through Strategic Reels & WhatsApp Automation

Executive Summary:

This project focuses on improving **Chakki Peesing's Instagram presence** by implementing a creative Reels strategy and **WhatsApp Automation**. The objective is to increase brand awareness, audience engagement, customer inquiries, and lead generation through consistent short-form video content and automated customer communication. The project outlines the content strategy, implementation timeline, expected outcomes, and key performance indicators (KPIs) to support sustainable digital growth.

Goals	Objectives
Increase Instagram reach	Improve visibility through engaging and trending Reels.
Boost customer engagement	Increase likes, comments, shares, and saves through creative content.
Generate quality leads	Convert Instagram visitors into WhatsApp inquiries.
Improve customer communication	Automate responses for faster query handling.
Build brand credibility	Showcase product quality, customer trust, and brand values.

Background Context:

Chakki Peesing is a flour and grains brand that provides fresh, hygienically processed products to customers. The company wanted to strengthen its Instagram presence by publishing engaging Reels while simplifying customer communication through WhatsApp Automation. The project was carried out from **April 2025 to the present**, focusing specifically on Instagram content strategy and automated customer interaction.

Problem Statement:

Chakki Peesing had limited Instagram engagement and required a consistent content strategy to increase visibility and audience interaction. Customer inquiries through social media also required manual responses, resulting in slower communication and missed business opportunities.

Risk	Alternative
Low Instagram reach	Create trending Reels using popular audio and engaging storytelling.
Inconsistent content	Develop a monthly content calendar for regular posting.
Slow response to customer inquiries	Implement WhatsApp Automation for instant replies.
Low audience engagement	Encourage interactive content such as polls, FAQs, and behind-the-scenes videos.
Algorithm changes	Diversify content formats and monitor performance regularly.

Methodology:

The strategy was developed through competitor analysis, Instagram trend research, audience behavior analysis, content planning, and continuous monitoring of Reel performance. WhatsApp Automation was designed to streamline customer communication and improve response time.

Analysis:

SWOT Analysis

Strengths	Weaknesses
Quality products with strong customer value.	Limited social media visibility before strategy implementation.
Authentic local brand identity.	Inconsistent Instagram content.
Opportunity to build customer trust through educational content.	Manual handling of customer inquiries.
Growing demand for fresh and healthy food products.	Limited brand awareness outside existing customers.
Opportunities	Threats
Growing popularity of Instagram Reels.	High competition from local flour brands.
WhatsApp Automation for faster customer service.	Changing Instagram algorithm.
Customer-generated content and testimonials.	Increasing competition in digital marketing.
Collaboration with local food creators and influencers.	Declining organic reach without consistent posting.

Proposed Solutions & Implementation:

Solution	Implementation	Timeline	Expected Outcome
Instagram Reels Strategy	Create engaging Reels featuring product quality, daily usage, recipes, customer testimonials, and behind-the-scenes content.	April 2025 - Present	Higher reach, engagement, and brand awareness.
Content Calendar	Plan and publish Reels consistently based on trends, festivals, and customer interests.	Monthly	Improved posting consistency and audience retention.
WhatsApp Automation	Set up automated greetings, product information, FAQs, and inquiry responses.	April 2025 - Present	Faster customer support and increased lead generation.
Performance Tracking	Monitor Reel views, engagement, follower growth, and WhatsApp inquiries to optimize content.	Ongoing	Better decision-making and continuous improvement.

Implementation Timeline:

Phase	Activities	Duration
Phase 1 - Planning	Competitor research, Instagram audit, and content planning.	April 2025
Phase 2 - Execution	Reels creation, content publishing, and WhatsApp Automation setup.	May 2025 onwards
Phase 3 - Optimization	Analyze engagement, optimize content strategy, and improve automation based on customer feedback.	Ongoing

Results :

Area	Success Metrics (KPIs)
Instagram Reach	Reach, Impressions, Reel Views
Customer Engagement	Likes, Comments, Shares, Saves
Lead Generation	WhatsApp Clicks, Direct Messages
Customer Support	Response Time, Customer Satisfaction
Brand Growth	Follower Growth, Engagement Rate

Conclusion:

The Instagram-focused strategy and WhatsApp Automation helped create a more engaging and efficient digital presence for Chakki Peesing. By consistently publishing creative Reels and automating customer communication, the brand can improve audience engagement, strengthen customer relationships, and generate more qualified leads. Continuous monitoring and optimization will support long-term growth and a stronger online presence.
